WELCOME TO THE NEW WORLD OF Accutone® 2.

Long recognized for manufacturing the industry's highest performing sound booths, IAC now offers Accutone 2, modular rooms that provide the look and feel of traditional spaces and offer a new level of ambiance and a state-of-the-art advance in the design of modular sound-control environments.

Accutone 2 OFFERS:

- Enhanced room acoustics
- Better noise-reduction
- Improved low-frequency transmission loss (TL)
- A completely flexible selection of fabric panels, acoustical liners, and carpeting in five colorways that combine to create palettes ranging from monochromatic to complementary
- Absorptive and aesthetic fabric top-paneling
- Edge-smoothing corner panels
- Space-enhancing chair rails
- Interior wood finishes for floors and desk tops
- Door and exterior finishes including a range of brushed metals and a full spectrum of wood veneers

ALL Accutone 2 BOOTHS FEATURE CHOICE OF:

- Noise-Lock® doors in full-vision, multi-leaf, wood veneer, and flush architectural styles, performance-matched with STCs ranging from 51 to 64
- NoiseLock® factory assembled windows, available in single-glaze, double-glaze, vertical panes, sloped panes, or combinations of sloped/vertical

Accutone 2 is the new IAC standard for both stock and custom-designed modular sound-control environments.

create your own ATMOSPHERE

The new brushed metal finish is available in both galvanized and stainless steel. It may be special ordered in a range of other metals including brass and bronze.

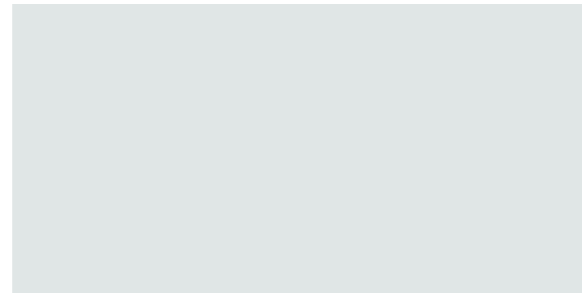

Accutone 2 may also be specified in any of 62 species of wood.
